GAUNT FAMINE AGAIN MENACES SAN FRANCISCO

The Most Careful Husbanding of Supplies Has Become Necessary

There is Only Enough of the Cheapest Provisions to Last Ten days—The Government's Appropriation, in Cash and Supplies, Has Been Exhausted.

San Francisco, May 5.—An important conference, devoted to the problem of husbanding food supplies, was held at the Presidio today. Among those in attendance were General Greeley, General Funston, Dr. Devine and Allan Folak. The situation, as made public during the committee meeting last Thursday was discussed in all its details and all present agreed that rigid economy should be practiced in future distribution.

At the conclusion of the conference General Greeley said: "The condition of the food supply will render it possible to issue very little except flour which will last ten days, potatoes, coffee and rice. Meat we are buying in small quantities. I have been officially notified that the appropriation of \$2,500,000 has been exhausted in the purchase of supplies, and I may state that the money allotted to my use is gone for the same purpose. It has been agreed that the supplies now on hand must be carefully husbanded in order that they may be diverted into the proper channels for as long a period as possible.

"We are issuing but two-thirds of the quantity of food that was distributed prior to the time the regular army took charge of the system. The teams engaged in hauling and distributing have been reduced from 500 to 262 in number. The last official report showed that supplies were issued on Thursday to 261,000 people. I hope that today's report will show rations issued to less than 200,000.

"The census of each district is being carefully computed. I am convinced that there is regular repeating, and since thousands of men are reported to have obtained employment there should be a material reduction in the number

When you're longing for a rest, Take my advice and get a test Of Donofrio's Crystallized Cactus Candy. You'll enjoy it I'm sure. 'Cause it's wholesome, also pure. For it's made by Donofrio's hand. This great wonder of the land.

of those entitled to relief. I am willing to put on the screws and diminish the food supply at any time, but I shall not take such a step until I am so advised by the committee.

"We have recommended the patronage of cheap restaurants, which may be located in many places throughout the city and are certain to prosper. By furnishing a wholesome meal for fifteen cents they will be assured of support by the working population and will greatly relieve the situation."

San Francisco, May 5.—That every facility will be offered the builders of new San Francisco by the big manufacturers of the east is apparent from the promises of representatives of the allied companies of the American Steel makers, six of whom are on the ground here. Structural steel will be furnished San Francisco for the next three years as fast as needed. Money will not be wanting to carry on building operations.

A large amount of money is being forwarded here by insurance companies to meet the immense losses they will have to pay. In all respects the work of restoring order is proceeding more smoothly day by day. A happy feature is the prospect of a restoration of the supply of gas for cooking, lighting and heating.

This will be a great boon to householders who have been forced to cook in the street since the great fire.

RUSSIAN REFORM NOT TO BE EXTREME

The More Moderate Constitutionalists are in Control.

St. Petersburg, May 5.—The extremist wing of the constitutional democrats went down to defeat tonight before the smoothly working machinery of the central committee whose resolution defining the program of the party and introduced by Prof. Milukoff yesterday was adopted.

The radicals fought to the bitter end "the tyranny of the ring," but the moderates had the votes and won. They immediately followed up their victory by introducing a project of party organization, which places the

control of both the policy and tactics of the party in the hands of the national congress and its executive arm, the central committee.

The members of this committee not only dictate the program of the congress, but also voice the vote of all caucuses of the various political parties in congress. This project probably will be adopted tomorrow, although the opposition to it will be even more bitter than that displayed today.

POLISH PRINCEING.

Brother-in-Law of W. H. Crocker Dies in New York.

New York, May 5.—Prince Charles Jos Stanislaus Marie Poniatowski, well known in this country, died at the Hotel St. Regis from pneumonia, aged 41 years. Prince Charles Poniatowski was the elder brother of Prince Andre Poniatowski, who is the brother-in-law of W. H. Crocker of San Francisco.

His father, Prince Stanislaus Poniatowski, was master of horse to Napoleon III and an ancestor was King Stanislaus of Poland.

ARIZONA GUARDSMEN OFFERED AN OUTING

They May go into the Regular Army Camp at Austin.

Washington, May 5.—Acting Secretary Oliver today took a step of great interest to the National Guardsmen of the country when he sent out a circular letter to the governors of the various states having organized militia forces, inviting them to have some part of these troops go into summer camps with the troops of the regular army. The pending army appropriation bill contains an item of \$700,000 to defray the expenses of joint encampments. The camps will be open from August 1, to September 30 next. The militia from Louisiana, Texas, New Mexico and Arizona will encamp at Austin, Texas.

BIGELOW'S CASHIER

Will Accompany Him Back to Leavenworth Prison.

Milwaukee, May 5.—Henry G. Goll, former cashier of the First National bank, who was indicted for misapplying funds, was this afternoon sentenced to ten years at Fort Leavenworth prison. Goll was indicted at the same time that the federal grand jury returned true bills against his former superior, Frank G. Bigelow, who pleaded guilty to defalcation a year ago and received the same sentence.

Bigelow was the principal witness at the Goll trial, and testified that many of Goll's acts were committed at his direction, but that of some of them he had no knowledge.

MEXICO IS MAD.

The Republic Will Aid San Francisco in Spite of President Roosevelt.

El Paso, Texas, May 5.—According to A. N. Daguerre, secretary of the Mexican district of Bravos, Mexico is going to send a commission to San Francisco to look into the needs of her citizens there.

He says President Roosevelt's rejection of Mexico's proffered aid has caused indignation in Mexico and she will send a commission to help her own people, regardless of his action.

THE CONFEREES AT THE CORE

The Statehood Controversy Within Narrowest Limits

The Only Question Remaining is When May Arizona and New Mexico Vote on the Proposition.

Washington, May 5.—All the minor amendments to the statehood bill are either disposed of or are in such shape that they may be made the foundation of arguments at a moment's notice. At today's session of the conferees the crux of the situation was reached for the first time. The question of the admission of Arizona and New Mexico as one state was discussed at length.

A proposition for a compromise was offered, and the meeting adjourned until Tuesday. In a general way it is known that the compromise will be the Foraker amendment, allowing the people of the two territories to vote upon the question of joint statehood separately. Whether this vote will be coupled with the election for state officers or will be held prior, is one of the questions to be decided.

THE AWARD CONTINUED

There'll be No Anthracite Strike This Year

The Only Question is Whether the Agreement Shall Last Two Years or Longer.

Scranton, Pa., May 5.—On the advice of President Mitchell, representing the anthracite coal miners, the miners' committee today unanimously voted to adopt the first proposition of the operators, a continuation of the award of the anthracite coal commission, with the modification that the term for which it is to continue shall be mutually agreed upon. The operators' committee was that it should be at least three years.

The action of the convention, together with a request for a conference on Monday was telegraphed by President Mitchell to Chairman Geo. F. Baer, of the operators' committee, and an answer was received agreeing to the proposition, a practice not infrequently and not peculiar to the oil traffic.

"In the message from the president transmitting the report of Commissioner Garfield, reference is made to the relations of the railroads to the so-called 'sugar trust' at New York and to information communicated to the president that the so-called 'sugar trust' rarely, if ever, pays lawful rate for transportation. Having personal knowledge, I deny most positively and emphatically that such information is true, so far as the Pennsylvania railroad company is concerned. On the contrary, I assert positively that the traffic of the so-called 'sugar trust' or other shippers of sugar has been carried on for many years past at the lawful published tariff rate, and that no rebate or unlawful concession, direct or indirect, has been paid by our company on this traffic."

GERMANS IN AFRICA.

The Insurrection on the East Coast Not Suppressed.

Berlin, May 5.—The latest news received from German East Africa completely contradicts the official announcement of February 2, that the insurrection had been suppressed. The Lokai Anseiger's Dar-Es-Salaam correspondent, in a cablegram, gives reports of a series of engagements extending from March 13 to April 25, in which he says the natives lost over 400 men and the Germans, 13.

THEY'LL KEEP GORKY OUT.

St. Petersburg, May 5.—It is officially announced that Maxim Gorky will be prosecuted again on a charge of fomenting an anti-Russian and revolutionary movement abroad. It would appear that process against Gorky is designed to prevent his return to Russia.

THE FIGHT IS OVER ON THE RATE BILL

A Compromise in Which All Republican Senators May Join

It is Possible That a Final Vote Will be Reached on Wednesday—Its Passage With the Allison Amendment is Generally Conceded.

Washington, May 5.—Assurances were today given to the president that practically the republican strength would be cast for the Allison amendment to the railroad rate bill. Senator Allison hopes to be well enough to be in his seat Monday, but it is likely that the compromise will not be offered until the rate-making and court-review sections of the bill are reached. The final vote on the bill may come as early as Wednesday.

Comparatively few senators were at the capitol today. Instead of having a conference, as had been suggested, the leaders seemed to think that the general welcome given to the statement that a compromise had been agreed upon made such a gathering unnecessary. The few who did meet at the capitol discussed the president's statement again endorsing the Allison amendment and expressed the opinion that his acceptance of the proposition eliminated all prospects of a contest.

Many of the democrats, especially those who advocated Senator Bailey's plan for a limited review, were inclined to look with some doubt upon the compromise proposition. They would have preferred the bill without amendment, as the alternative of the Bailey amendment, twelve years before the expiration of the Allison amendment, would have been to let the democrats should all vote against the amendment, not with an idea of defeating it, but simply to show their disapproval of its terms. The minority.

It is believed, will vote unanimously for the passage of the bill on its final vote. Senator Carter visited the president tonight and assured him that the compromise would be adopted. It is known that the Montana senator has several times made polls of the senate on the rate bill, and it is believed that his mission tonight is to give the result of today's inquiries.

NAVAL BILL DEBATE ENDED.

Washington, May 5.—General debate on the naval appropriation bill terminated with the close of today's session of the house, one paragraph of the bill being read in order to make it the continuing order before the house adjourned. International arbitration, the reduction of our armament, a carefully prepared address on the achievements of the navy and a defense of the naval program for 1907, together with a speech in favor of a monument on King's Mountain battlefield, were the features of this legislative day. Those who addressed the house formally were Mr. Bartholdt of Missouri, Mr. Johnson of South Carolina, Mr. Webb of North Carolina, Mr. Turrell and Mr. Weeks of Massachusetts.

Mr. Foss of Illinois, in charge of the bill, stated that the naval budget probably would be completed after two days' debate under the five-minute rule; Mr. Payne, the floor leader, thought it would take a day longer.

RHODE ISLAND AGROUND IN CHESAPEAKE BAY

The Big Battleship Stranded Without Any Apparent Excuse.

Norfolk, Va., May 5.—The battleship Rhode Island stranded this morning off York Point in Chesapeake bay. The vessel passed in the capes early this morning from the Boston navy yard and was enroute to Yorktown, Va. The big ship was just entering the mouth of the York river when she struck nose first on a sandbar and from last report received here she is still hard aground.

The tugs Uncas, Hercules and Mohawk were rushed to her assistance and have been standing by the ship since early this afternoon. The efforts of the tugs to float the big ship have so far, according to the last report received here, been unavailing.

There was no fog or storm on the bay this morning and officials are unable to account for the accident.

THE DAMAGE AT HEALDSBURG.

THE ST. LOUIS MARATHON.

The Three Leading Runners Were Chicago Men.

St. Louis, May 5.—Chicago won the first three places of the second annual Marathon run, held under the auspices of the Missouri Athletic club today, over the roads of St. Louis county.

I. R. Hatch finished first; time, 2:45:14.3-5. Fifty yards behind Hatch came Geo. Thibault, runner, and Lewis Marks, first regiment, was nearly a mile back of Thibault. L. D. Lambroski, a Greek, running under the Keokuk, Iowa, Y. M. C. A. colors, finished fourth. There were 17 starters.

POLICEMEN AND STRIKERS.

Pasadena, N. J., May 5.—In a battle between riotous Italian strikers and police today, four rioters were shot, and a number of policemen were injured.

There were thirty arrests. One of the men shot will die.

Our Boys Succeed

In January, 1904, Mr. W. N. Windes was driving a stage between Tempe and Phoenix. Having about an hour's time each day at his disposal, he decided to take up the study of shorthand and entered The Lamson Business College for this one hour's work. After spending about five months in this way, he was given a position as stenographer for Mr. Peters, of Tempe, with whom he has been ever since. Mr. Windes, desiring to take special work for the Civil Service examination, put in a half day, for two months, during our Summer Session last summer. On March 22d, he took the examination held in Phoenix, and on April 26th he received an appointment to Panama. The following letter to Mrs. Land, principal of the Shorthand and Typewriting departments, shows to what extent he attributes his success to the training received in the L. B. C.

Mrs. Ellen B. Land,
Phoenix, Ariz.

Dear Mrs. Land:—I have just received the following telegram from Washington, D. C.: Offer you employment Stenographer Ist. minus Panama one hundred twenty-five dollars per month quarters free transportation New York to Colon. Wire reply stating earliest date can sail."

I took the Civil Service examination for Stenographer-Typewriter in Phoenix, March 22d. As yet I have not received a statement of the grades I received, but as those who have received the highest percentage are usually appointed first, I should judge that I made a fair average.

It has been stated by a prominent Civil Service authority that in order for a graduate of the ordinary commercial school to pass the Civil Service examination, he should have after graduation at least a year's work in a good office, or a year's hard practice in school. As yet I am unable to meet your requirements for a diploma. One would naturally conclude from this that your standards are higher than those of the ordinary business college. Of one thing I am sure, the standards of The Lamson Business College are high enough to insure the efficiency of any one who is able to secure your diploma.

Yours very truly,
W. N. WINDES.

There are many young people who, by a little effort and determination, could better their conditions in the same proportion that this young man has. START ON THE ROAD TO SUCCESS by taking a summer course in The Lamson Business College. Sessions beginning June 1st from 8 a. m. to 12 m. Call at the office or write for special information.

The Lamson Business College
